I am a Front End Developer with a couple of years under my belt, dedicated to creating user friendly web apps that really boost engagement and satisfaction. I've got solid skills in modern JavaScript frameworks, especially React.js and Next.js, which helps me design responsive layouts that work well on any device. I'm all about making apps perform better and focusing on user friendly UI/UX, ensuring that everything we deliver is top
notch. I love working with different teams to develop products together and keep our coding standards high.

EXPERIENCE

06/2024 – Present
Brampton, ON

FRONT END DEVELOPER, *GamePride*
- Developed User Interfaces: Successfully implemented intuitive and user-friendly interfaces using modern JavaScript frameworks, ensuring optimal user experience and accessibility.
- API Integration: Integrated RESTful APIs with React Query to manage data fetching, caching, and synchronization, enhancing application performance and user interactivity.
- Bug Fixing and Optimization: Diagnosed and resolved critical bugs and performance issues, leading to a 20% increase in application efficiency and user satisfaction.
- Collaborative Development: Collaborated closely with fellow frontend developers, UI/UX designers, and backend developers to deliver cohesive and visually appealing products, ensuring seamless integration and functionality.
- Responsive Design: Built mobile-responsive user interfaces, ensuring consistent and optimal performance across various devices and screen sizes, contributing to a 15% boost in mobile user engagement.
- Developed and maintained user-facing websites using HTML, CSS, JavaScript, and ReactJS.
- Collaborated closely with the back-end developers to integrate API calls into the front-end codebase.
- Created Ul components with reusable codes for a better user experience.
- Used version control systems such as Git to manage source code repositories in a team environment.
- Learned new front-end programming languages and methodologies to perform tasks.
- Applied best practices in coding standards, semantic markup, and SEO optimization techniques.
- Designed and developed new features and functionality for existing systems.
- Implemented responsive design principles to ensure cross-platform compatibility of webpages.
- Monitored application performance metrics and troubleshot any technical issues encountered during development.
- Provided ongoing maintenance support for existing projects after deployment.
- Maintained understanding of current web technologies and programming practices through continuing education and participation in professional conferences and workshops.

11/2022 – Present
Lagos, LA

FRONT END DEVELOPER INTERN, *Prodevs Outsourcing Limited*
- Collaborated with the development team to create and implement user-friendly web interfaces.
- Assisted in the development and maintenance of responsive web applications.
- Stayed up-to-date with the latest web development trends and technologies.

EDUCATION

12/2022
Ilorin

MICROBIOLOGY, *University of Ilorin*

SKILLS

TypeScript ● JavaScript ● ReactJS ● NextJS ● Tailwind CSS ●
Sass (Syntactically Awesome Style Sheets) ● React Query ● Redux ● Git ● Responsive Web Design
